Kata Pengantar

Pendidikan kesetaraan sebagai pendidikan alternatif memberikan layanan kepada masyarakat yang karena kondisi geografis, sosial budaya, ekonomi dan psikologis tidak berkesempatan mengikuti pendidikan dasar dan menengah di jalur pendidikan formal. Kurikulum pendidikan kesetaraan dikembangkan mengacu pada kurikulum 2013 pendidikan dasar dan menengah hasil revisi berdasarkan peraturan Mendikbud No.24 tahun 2016. Proses adaptasi kurikulum 2013 ke dalam kurikulum pendidikan kesetaraan adalah melalui proses kontekstualisasi dan fungsionalisasi dari masing-masing kompetensi dasar, sehingga peserta didik memahami makna dari setiap kompetensi yang dipelajari.

Pembelajaran pendidikan kesetaraan menggunakan prinsip *flexible learning* sesuai dengan karakteristik peserta didik kesetaraan. Penerapan prinsip pembelajaran tersebut menggunakan sistem pembelajaran modular di mana peserta didik memiliki kebebasan dalam penyelesaian tiap modul yang disajikan. Konsekuensi dari sistem tersebut adalah perlunya disusun modul pembelajaran pendidikan kesetaraan yang memungkinkan peserta didik untuk belajar dan melakukan evaluasi ketuntasan secara mandiri.

Tahun 2017 Direktorat Pembinaan Pendidikan Keaksaraan dan Kesetaraan, Direktorat Jenderal Pendidikan Anak Usia Dini dan Pendidikan Masyarakat mengembangkan modul pembelajaran pendidikan kesetaraan dengan melibatkan Pusat Kurikulum dan Perbukuan Kemdikbud, para akademisi, pamong belajar, guru dan tutor pendidikan kesetaraan. Modul pendidikan kesetaraan disediakan mulai paket A tingkat kompetensi 2 (kelas 4 Paket A), sedangkan untuk peserta didik Paket A usia sekolah, modul tingkat kompetensi 1 (Paket A setara SD kelas 1-3) menggunakan buku pelajaran Sekolah Dasar kelas 1-3, karena mereka masih memerlukan banyak bimbingan guru/tutor dan belum bisa belajar secara mandiri.

Kami mengucapkan terimakasih atas partisipasi dari Pusat Kurikulum dan Perbukuan Kemdikbud, para akademisi, pamong belajar, guru, tutor pendidikan kesetaraan dan semua pihak yang telah berpartisipasi dalam penyusunan modul ini.

Modul 13

A Picture Speaks Louder Than A Word

Introduction

In this fast-paced world, when you have a message to convey, people hardly have time to sit down and read anything lengthy anymore. Even in newspaper, magazines, people look to pictures to tell a story if they don't have time to read the whole article.

In this **Module 13 – A Picture Speaks Louder Than A Word** will give you a glimpse of where visuals are always more effective than just the written word. Our attention is more easily drawn to a picture rather than simply a group of words. In an instant, an image can convey an idea or emotion which will stick with you longer than the words on a page.

Module 13 consists of two Units with practical Activities in each Unit.

In **Unit 1 – What Does It say?**, you will find explanations about Caption (the heading or title underneath a picture which explains what it is about) and Nominal Phrase (also known as Noun Phrase is a group of words that function like nouns. By understanding noun phrases someone is able to understand a sentence).

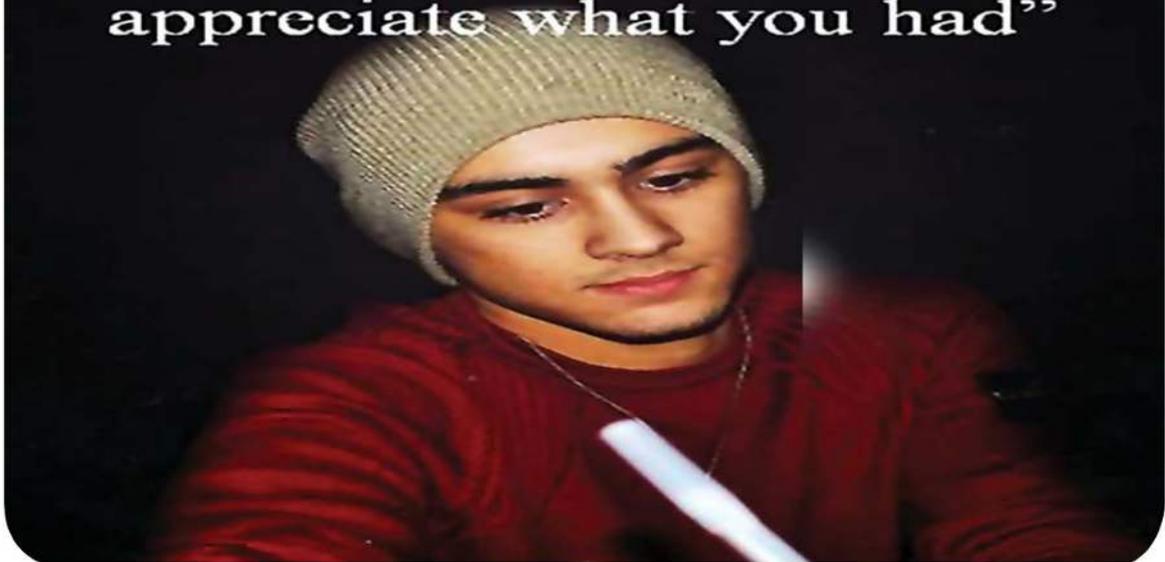

Whereas in **Unit 2 – Each Colour Has Its Meaning**, we will introduce an easy way to display or read data from Tables, Graphs and Charts.

At some point in everyday life, you may come accross information represented in charts, graphs and tables. Charts and graphs are generally used to help illustrate the point that the article is trying to make, while Tables are a useful way to present a lot of data in a clear and organised manner.

Use All Your Strength

To ask for help and support when we need it is not a sign of weakness, it is a sign of wisdom. While walking along a forest path, Diana and her father came across a large tree branch on the ground.

“Dad, if I try, do you think I could move that branch?”, asked Diana.

“I am sure you can if you use all your strength”, said her father.

Diana tried her best to lift the branch, but she couldn't move it.

“You were wrong, dad. I can't move it.”

The disappointment was evident in the little girl's voice.

“Try again with all your strength,” encouraged her father.

Diana tried again but failed, “Dad, I cannot do it!”

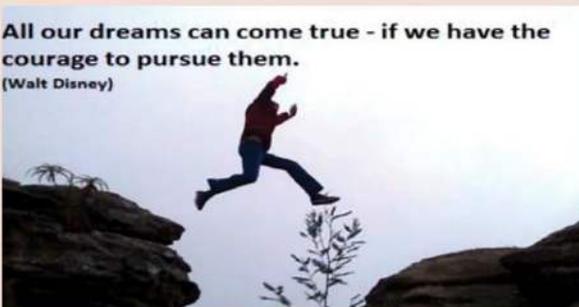

“Young lady, I advised you to use all your strength. You didn't ask for my help”, said her father.

Our real strength lies not in independence, but in interdependence. To ask for help when in need is not a sign of weakness but a sign of wisdom.

What for is a caption?

It is:

1. to explain what is shown in a picture.
2. to help the reader or viewer to understand information that may not be in a photo or a video.
3. to identify the subject of the picture.
4. to draw attention to something in the image that is not obvious.
5. to help the reader understand information that may or may not be in the text.
6. to give a description of what is going on in the picture.
7. to a explain a picture.

(taken from: <http://gmesenglish.blogspot.com/2019/09/caption-teks-di-bawah-atau-di-samping.html>)

The Procedure for a Good Caption

According to <http://nwscholasticpress.org>, a good caption as a complement to an image can be written in the following procedure.

1. Don't use article words like a, an, or the.
2. As much as possible use the Present Tenses so that images can be described.
3. Give the reader information that is not obtained just by looking at the picture.
4. The existence of the caption to complete the photo is not a substitute for the photo.
5. Writing a caption doesn't need to start with a name.
6. Writing a caption to indicate an individual, can use the word "from left," NOT "from left to right."
7. No need to write obvious words like "Above" and "pictured here".
8. Mention the name in the caption only if the name is really important.
9. Start writing good captions in English with the following variations of words:
 - prepositional phrases
 - adjective phrases
 - infinitive -phrases
 - questions
 - participial phrases
 - exclamations

The tips above certainly cannot be used all in one photo. Some of them should be adjusted based on the context.

a. Tables

A table is a set of facts and figures arranged in columns and rows and is a very useful way of organizing numerical information or data.

Example:

Information about students' grades has been arranged below using data tables.

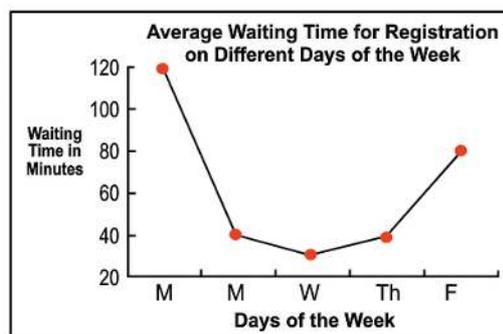

NAME	MATH	SCIENCE	LINGUISTICS
Doni	80	80	85
Aris	70	80	80
Teti	65	75	85
Joni	75	65	86
Riris	80	70	80
Bibi	80	80	85

b. A graph

A graph is a chart or drawing that shows the relationship between changing things. It is a diagram displaying the relationship between numbers or amounts. Most graphs use bars, lines, or parts of a circle to display data.

1) Line graphs

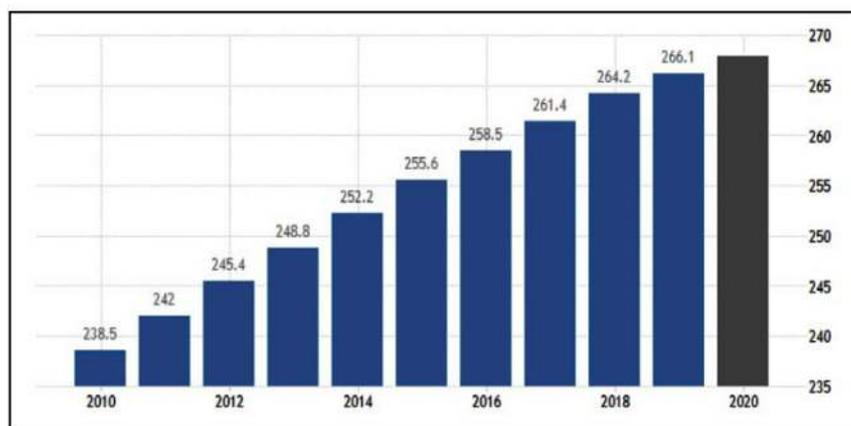

A line graph is a diagram, usually a line or curve, which shows how two or more sets of numbers or measurements are related. The names of the axes on a graph are the vertical axis (y axis) and the horizontal axis (x axis).

2) Bar graph

A Bar graph is a diagram that makes information easier to understand by showing how two or more sets of data are related.

A bar graph is usually divided into vertical columns.

The growing population is a concern for Indonesia's economy, threatening to slow its growth and development. A low population growth rate would translate into a high per capita GDP, leading to higher incomes, higher savings, higher investments, and implies a decrease in the poverty rate.

Indonesia Population Growth

That final figure of 1.04% may not seem like a lot but on a population of over 250 million, it leads to some significant increases. As the Jakarta Post reported in 2013, Indonesia's population has doubled within just 40 years from 119 million in 1971 to almost 240 million in 2010, based on figures from the Central Statistics Agency. In another 40 years, the country's population is expected to climb much higher.

5. Pay Attention

According to Webster dictionary:

- a sentence is a word, clause, or phrase or a group of clauses or phrases forming a syntactic unit which expresses an assertion, a question, a command, a wish, an exclamation, or the performance of an action, that in writing usually begins with a capital letter and concludes with appropriate end punctuation, and that in speaking is distinguished by characteristic patterns of stress, pitch, and pauses.
- a phrase is a word or group of words forming a syntactic constituent with a single grammatical function

It's important to know the difference between a phrase and a clause. As you might know, *a clause must include a subject and a predicate. A phrase, however, doesn't contain a subject and a predicate*, so while it's found within a clause, a phrase can't be a clause. Instead, a phrase can be made up of any two or more connected words that don't make a clause. For example, "buttery popcorn" is a phrase, but "I eat buttery popcorn" is a clause.

Because it isn't a clause, **a phrase is never a full sentence on its own.**

Grammar Zone

A. Read and learn about Verbal Phrase

“Might” is called a helping verb, or an auxiliary verb. Helping verbs aid the main verb in expressing time or action. The main verb in this case is ‘to be’. When a helping verb appears in a sentences instead of a simple verb, this is a verb phrase. A verb phrase consists of a main verb and one or more helping verbs linked together.

Look at the following examples and try to identify the verb phrase. Notice how the verb phrase helps express the different time each action is taking place.

- Different versions of ‘The Endless Tale’ have originated in various parts of the world. The verb phrase is **‘have originated’** and is past tense.
- The hero can talk endlessly about locusts stealing corn. The verb phrase is **‘can talk’** and is present tense.

Examples:

- Despite our reservations, we did go out in the snowstorm.
 - » (Did go is the verb phrase. Did is the helping verb, and go is the main verb.)
- Uma is coming with us to the movie.
 - » (Is coming is the verb phrase. ‘Is’ is the helping verb, and coming is the main verb.)
- We will distribute pamphlets as part of our presentation.
 - » (Will distribute is the verb phrase. Will is the helping verb, and distribute is the main verb.)
- Eko should take his watch to get repaired.
 - » (Should take is the verb phrase. Should is the helping verb, and take is the main verb.)

Subjects and modifiers within verb phrases

Some sentences will feature a subject or a modifier placed in between the auxiliary verb of the phrase and the main verb. Note that the Subject or modifier is not considered part of the verb phrase.

Examples:

Do you think she will join us?

(Do think is the verb phrase. Do is the helping verb, and think is the main verb. ‘You’ is a pronoun functioning as a subject. It is not part of the verb phrase.)

E. PENILAIAN GABUNGAN

1. Penilaian gabungan adalah rerata antara nilai latihan, penugasan, dan soal evaluasi
2. Pemberian nilai gabungan dilakukan dengan kriteria sebagai berikut:

- a. Jumlah nilai latihan memiliki bobot 30%.
- b. Jumlah nilai penugasan memiliki bobot 40%.
- c. Jumlah nilai evaluasi memiliki bobot 30%.
- d. Penggabungan nilai dilakukan dengan cara sebagai berikut:
NILAI MODUL = (nilai latihan x 30%) + (penugasan x 40%) + (nilai evaluasi x 30%)
- e. Contoh:

Nilai latihan = 87,5

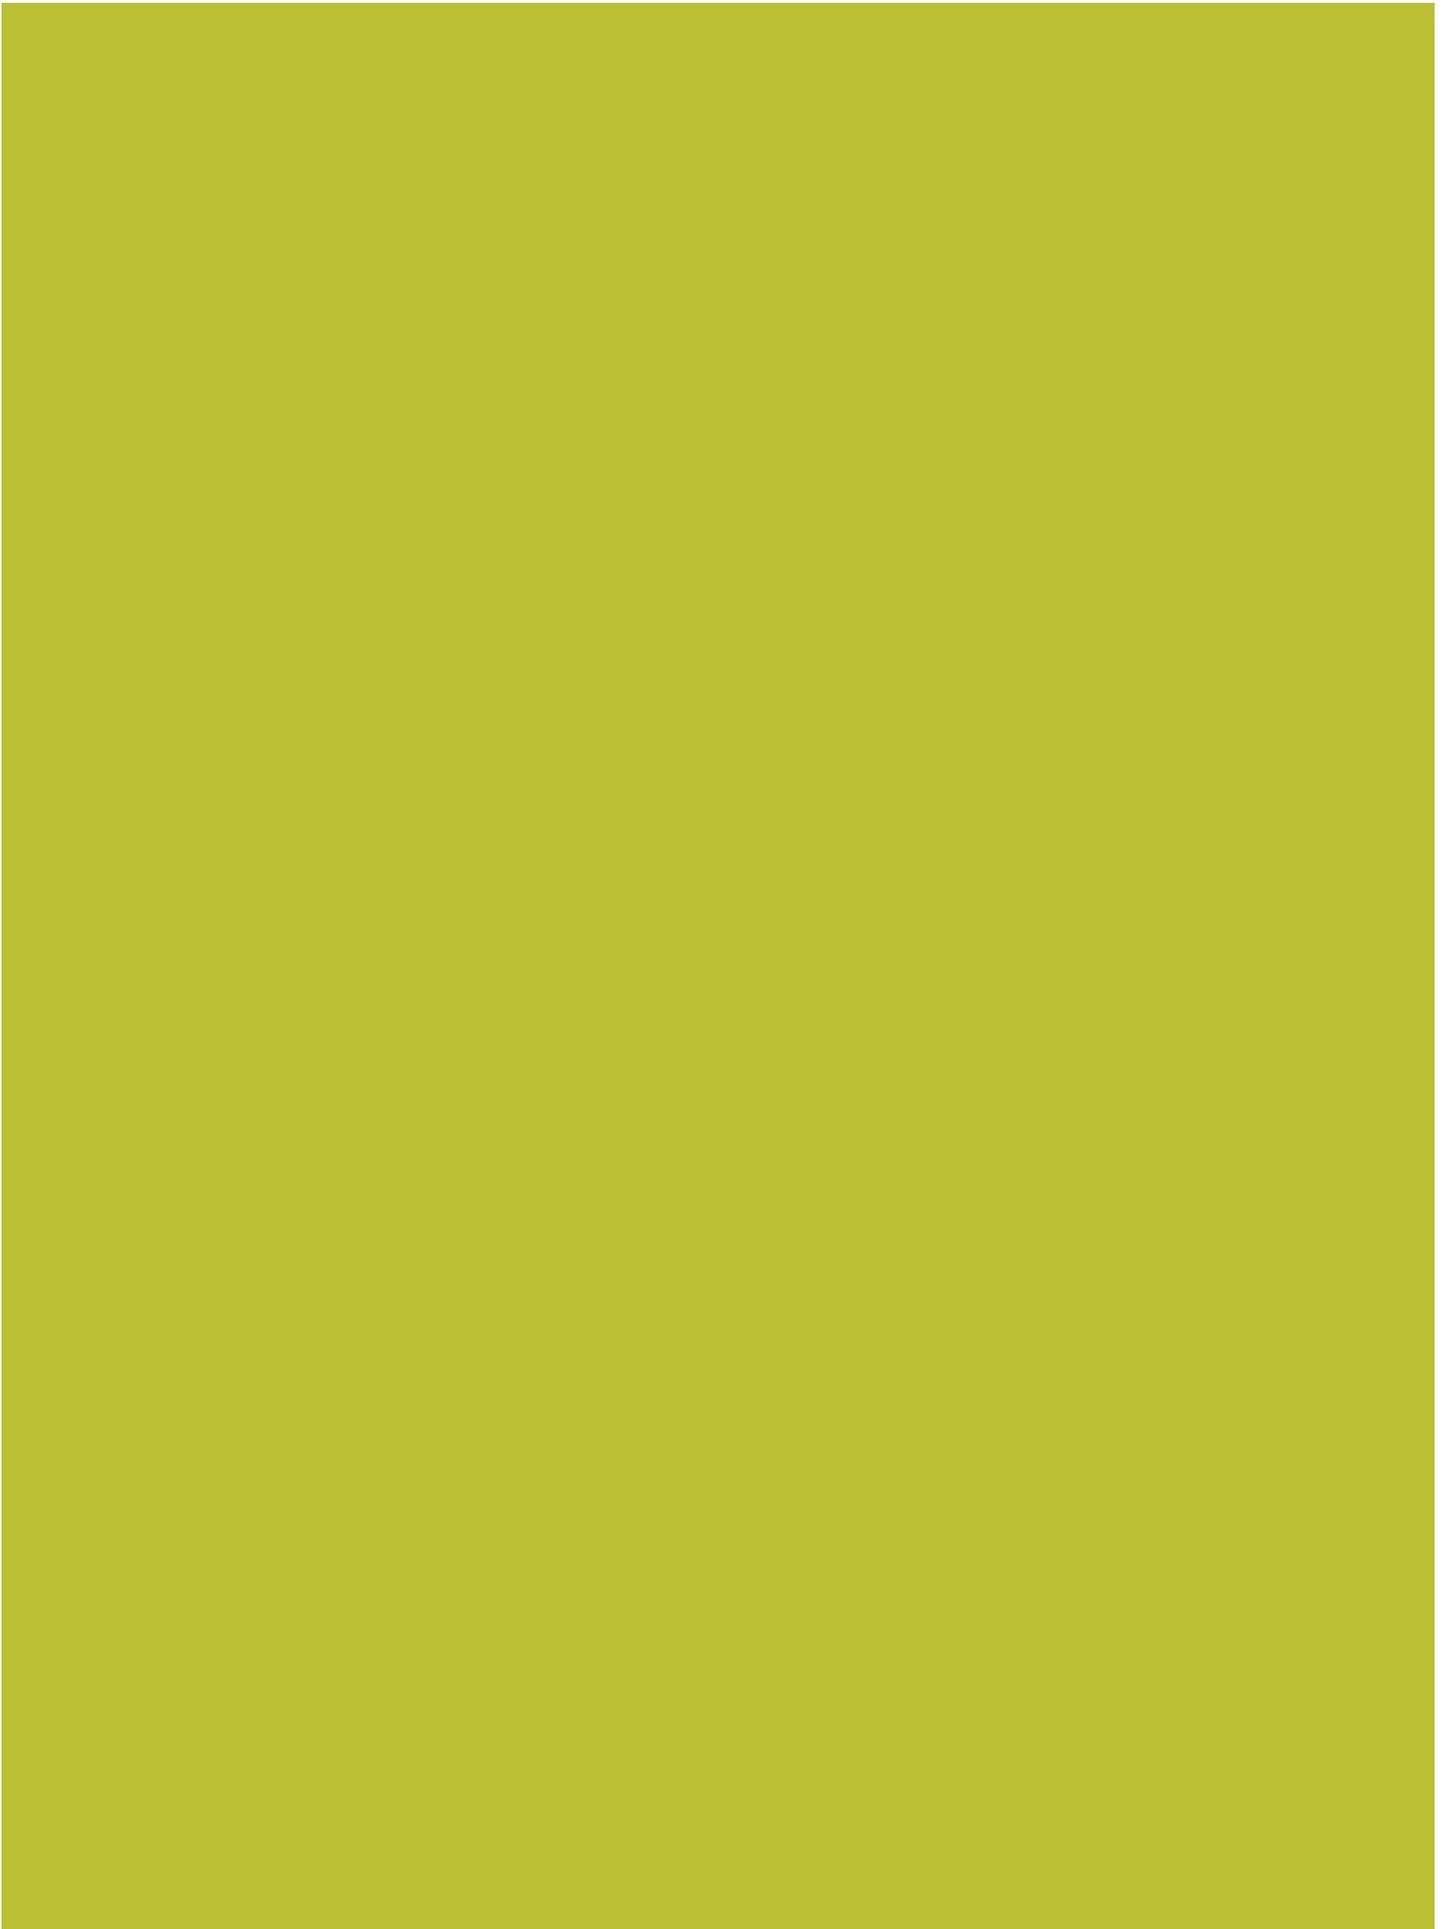

Nilai penugasan = 85

Nilai Evaluasi = 65

Nilai gabungan = (30% x 87,5) + (40% x 85) + (30% x 65)

= 26,25 + 34 + 19,5

= 79,75
